

American Music Institute

Where Music is For Life...

Music-ssori™

Designed for children ages 3-5 years old, this comprehensive music class introduces music to children on a truly educational level. Children use singing and piano skills to develop musical and cognitive learning skills. Children are exposed to various instruments including the violin, cello, flute and guitar. Percussion instruments are used to make rhythm exercises productive and musical. Music-ssori is an excellent class for young children to take as a precursor to private lessons, or simply as a fun class to become exposed to music. Absent of parent involvement, Music-ssori is designed to facilitate both musical knowledge and social development.

Dates: January 6 - April 21, 2007

Day/Time: Saturdays; 1 -- 1:50pm

Tuition: \$225
